

## PUTTING ON & REMOVING PERSONAL PROTECTIVE EQUIPMENT

PPE should be put on immediately before entering the room.

### Hand Hygiene to be performed before putting on PPE

#### 1. Apron

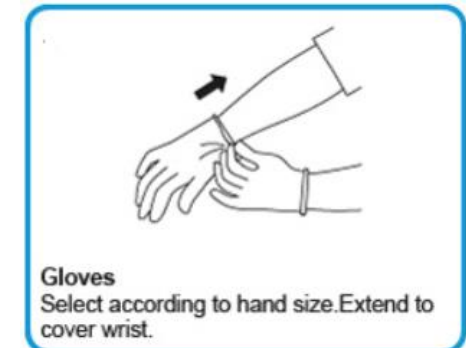

#### 2. Mask

#### 3. Eye Protection (If Req)

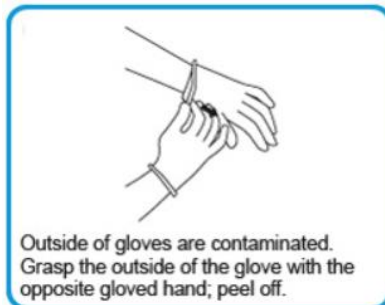

#### 4. Gloves

## REMOVAL OF PPE

PPE should be removed in the room in an order that minimises the potential for cross-contamination.

#### 1. Gloves

#### 2. Apron

#### 3. Eye Protection

#### 4. Mask

**Perform hand hygiene immediately after removing all PPE.**

## Residential Settings

- Dispose of PPE in bathroom bin in yellow bag.
- Disposal of clinical waste - Put on clean PPE, tie yellow bin bag, put into another yellow bin bag and put straight into outside clinical waste bin.
